

Press Release:

GMVV & Co. GmbH welcomes Ben Emmerson CBE KC as new cooperation partner to the team – strengthening cooperation in human rights, international criminal law, and sanctions proceedings.

Frankfurt am Main, October 6, 2025 – GMVV & Co. GmbH is delighted to welcome the internationally renowned King's Counsel Ben Emmerson CBE KC as a new partner to its team. Since 2015, Dr. Michele Sciarba of GMVV & Co. GmbH has repeatedly collaborated successfully with Ben Emmerson on various projects. This proven cooperation will now be further deepened and elevated to a new level.

Ben Emmerson is recognized worldwide as a leading expert in human rights, international criminal law, and sanctions proceedings. As former UN Special Rapporteur on Human Rights and Counter-Terrorism and Judge of the Appeals Chamber of the UN Mechanism for International Criminal Tribunals, he has played a key role in numerous landmark cases.

"We are proud to welcome Ben Emmerson as a permanent member of our team. His unique expertise will significantly strengthen our international work and provide lasting support to our clients in complex legal and political proceedings," said Dr. Michele Sciarba, Managing Director of GMVV & Co. GmbH.

With this addition, GMVV & Co. GmbH underlines its strong position in the international legal and consulting environment as a Think Tank and strategic advisor.

About GMVV & Co. GmbH

GMVV – founded in 1999 and based in Frankfurt, Germany – is both a business consultancy and a research-oriented Think Tank, registered by the Parliament of the European Union and the Commission in the EU Transparency Register under Section IV, specializing in the analysis and development of strategies for dealing with complex and often highly politicized issues.

GMVV is consulted on a range of issues, from data, conceptual and factual analysis of political, economic and social developments, to the development of geopolitical strategies. GMVV evaluates the impact of socio-economic changes caused by political developments as well as technological and environmental issues.
